Expression of Interest

Description of the project

Schizy Inc are aware of mental health sensory access requirements such as low lighting, quiet space or the need to bring a support person to help with social anxiety.

Please read and acknowledge.

These workshops will be led by industry professionals with a focus on fun and skills, however as with all lived experience advocacy we'll be exploring storytelling in relation to lived/living experience.

Schizy Inc will provide an experienced social worker for the workshops and event.

However, as Schizy Inc is not a mental health support organisation we need to know that artists are safe to be in an active lived experience space, and to explore and tell story.

If you are new to living experience advocacy, do you have supports in place, or a friend who can support you if needed?

PLEASE RETURN THIS FORM BY FRIDAY 4 FEB 2022
