

**Do you want to influence & transform
the mental health system...**

**Join the VMIAC
Consumer Register**

What is the VMIAC Consumer Register?

The register is for consumers and people with lived/living experiences of mental health challenges and/or emotional distress. It involves consumers sharing their knowledge and expertise to help build better services, systems, and policies.

The Department of Health lets us know about opportunities for consumers to consult or give feedback on services or policies within the mental health system. These are **paid opportunities** that draw on consumers' knowledge and expertise. We share these opportunities with the people on our register.

Ensuring consumers are involved at this level helps the system change and make important improvements. It also helps participants build skills in advocacy and elevates consumer expertise and experiences.
