

Mental health workforce

personnel survey

Help drive change

The Department of Health has opened a new mental health workforce personnel survey.

The survey will help progress workforce initiatives recommended by the Royal Commission into Victoria's Mental Health System.

Your participation in the survey is voluntary, anonymous and completely confidential.

The workforce personnel survey is open to all individuals working in public, community and private mental health service settings across Victoria.

Your insights are critical to drive change and realise the Royal Commission's vision for reform. Please take a few moments to participate in the survey.

Survey closes Monday 15 November 2021.
